SUDDEN CHANGE FOR THE WORSE

Condition of Pope Pius Creates Grave Anxiety.

TEMPERATURE IS GOING UP

Pontiff's Bronchial Symptoms Also Present New and Serious Features. Affected Zone on Left Side of Chest Shows Further Signs of Pneumonia. Rumors in Circulation That Holy Father Is Dying.

Rome, April 16.—Once again there has been a sudden change for the worse in the condition of Pope Pius X. It is changes such as this that have repeatedly transformed the feeling of optimism regarding the pope's recovery into one of grave anxiety. In the knowledge that each recurrence withdraws something from the vital forces of the holy father.

Notwithstanding the reassurances of Professor Marchisavi a careful watch is being kept on the Vatican and there is doubt that the "satisfactory general condition" of the pontiff, as reported by the doctors, is borne out by the facts.

The temperature of the pope rose to 102. The bronchial symptoms presented new and grave features. The affected zone on the left side of the chest was further consolidated, with a possible area of consolidation—one of the signs of pneumonia—and the sounds within the bronchial tubes were more pronounced.

The attending physician ordered a special bacteriological examination of the sputum in order to ascertain whether it contained infectious material and the nature of the matter, which threatens to block the lungs.

The darkest reports are being circulated, one being that the pope is at the point of death, and that Father Agostino Pifferi, an Augustinian monk, has been ordered to be in readiness to bring to the patient the last communion, this being the prerogative of his office.

This appears to be an exaggeration of the situation, although undoubtedly the pope's condition is much worse.

The arrival in Rome of Angelo Sarto, the pope's brother, was interpreted in some quarters as a certain sign that all hope had been abandoned. It was forgotten that Angelo Sarto left his own village on his journey to the Holy City long before the present relapse of the patient occurred, in fact, when the condition of the pope had greatly improved.

Angelo was received with open arms by his sisters, who seem to think that the more the pope is surrounded by members of his family the easier it will be to save him.

WOULD USE FLOOD WATERS

Congressman Martin Has Irrigation Scheme.

Washington, April 16.—Representative Martin of South Dakota is trying to have the interior department adopt a plan of utilizing flood waters for irrigation of semi-arid land in his state. He has had several conferences recently with Secretary Lane of the interior department and other officials in the land division in the hope that they will recognize the value of storage reservoirs for flood waters.

Mr. Martin says that at present field agents of the department are opposed to the plan because they say it is not practicable. Settlers have tried the plan out in a small way and declare it could be worked successfully.

Believing the department would ultimately adopt such a plan Mr. Martin says that many entries have been made.

KEEPS DEATH APPOINTMENT

Young Man Thought He Would Lose Nerve If He Waited.

Miles City, Mont., April 16.—Fay H. Maxwell of Balfour, N. D., about twenty-two years old, ended his life by shooting.

He left a letter to his father declaring it was his intention to kill himself at midnight, but he changed the hour to 7 p. m. sharp, because he was afraid he would "lose his nerve." He committed suicide at the time stated.

Young Maxwell had spent all the money given him by his father. He gave this as the reason for his act.

ADMITTS DIETZ MURDER.

Chicago, April 16.—A man in custody at the Northwest Side police station is said to have confessed to the murder of George Dietz, the wealthy tailor, found slain at his home early Monday morning.

\$2,132,857 More Titanic Claims.

New York, April 16.—There were 125 claims filed against the Oceanic Steamship company before the time limit expired for the beginning of actions for the loss of life or property in the sinking of the Titanic a year ago. These amount to \$2,132,857 and bring the total now claimed for loss of life and property and injury to nearly \$14,000,000.

MOTHERS SIGN AWAY INFANTS

Traffic in Babies Is Discovered in Chicago.

PROBERS CALL AT HOSPITALS

Illinois House of Representatives Has Committee Investigating Care of Children at Charitable Institutions. Mothers Are Alleged to Sign Away Rights to Babies Before Their Birth.

Chicago, April 16.—Traffic in infants was discovered by a committee of the Illinois house of representatives investigating the care of children at charitable institutions. The representatives visited several maternity homes preliminary to a session on Friday when the superintendents of the places will testify.

They will be asked about alleged contracts which mothers are requested to sign to obtain medical treatment. In these contracts the mothers are said to sign away their rights to their babies before their birth.

Members of the committee questioned Dr. S. D. Rogers, head of the National Maternity hospital, regarding arrangements made with a mother who wishes her child to be taken care of.

"We charge her \$25 to \$50 to dispose of the infant," he said. "It was the opinion of Mr. Curran that the mothers leave the hospitals with little money and fall easy prey to white slavers."

Chairman Curran announced that he had decided to urge the following reforms:

Prevention of adoption of children other than infants.

Prevention of contracting for adoption before birth.

Organization of a state institution for the care and education of foundlings.

Stricter regulation of lying in hospitals.

Speaker McKinley, who appointed the committee, asserted the "bartering of children in Illinois must stop."

STILWELL IS NOT GUILTY

Colleagues Acquit New York Senator Accused of Bribery.

Albany, N. Y., April 16.—Stephen J. Stilwell, Democratic senator from New York city, was declared not guilty of official misconduct by his colleagues. By a vote of 21 to 23 the senate voted not to sustain the charges brought by George H. Kendall, president of the New York Bank Note company, that Stilwell had accepted half of a \$250 fee paid for the drafting of a bill in which the company was interested and had solicited a \$3,500 bribe to advance the legislation.

SHOT FROM ANDERSON HOME

Verdict of Coroner's Jury in Death of Banker.

Bismarck, N. D., April 16.—The coroner's jury in the death of F. E. Funk, cashier of the First National bank of Washburn, who was slain, returned the following verdict:

"F. E. Funk of Washburn met his death in a felonious manner at the hands of an unknown person, by a rifle bullet fired from a window in the west wall of the W. T. Anderson residence."

Two Black Hand Victims.

Detroit, Mich., April 16.—Alberto Gervaso, thirty-three years old, and his brother-in-law, Alberto Catalano, twenty years old, were shot and killed when they returned home from work. Their assailant, who was unidentified, escaped. According to the police Gervaso had received five "Black Hand" letters demanding amounts ranging from \$500 to \$1,000.

SENATOR BURTON.

Chairman of Committee to Plan Action on Nominations.

MAY DEMAND EXPLANATION

Republican Senators Will Not Oppose All Nominations.

Washington, April 16.—Republican senators have determined to hold up and demand explanation of the proposed removal of Republican officials of the government if it appears that a change may have been decided upon by the administration "for political reasons."

This decision at a party conference is coupled with a determination not to make any general fight on President Wilson's appointments or to attempt retaliatory tactics against the Democrats, who prevented the confirmation of over 1,500 of President Taft's nominations in the last session. A committee consisting of Senators Burton, Townsend, Clark of Wyoming, Lippitt and Oliver was named to outline a general policy for the Republicans. There were twenty-eight Republican senators at the conference.

WHEAT SCHEDULE

REMAINS THE SAME

Democratic Caucus Stands by Committee Figures.

Washington, April 16.—Democratic representatives from all sections are being besieged in letter and by personal representatives of the insurance companies protesting against their inclusion, as taxable organizations, under the corporation tax provision of the tariff bill now under consideration by the house Democratic caucus.

Representative Cordell Hull of Tennessee, author of the income tax feature, said that his desk was piled with mail from insurance companies protesting that they are not profit-making organizations. The matter may be brought up in caucus, but the Democratic leaders declare that insurance organizations were given careful consideration when the law was framed and that opposition will not avail.

Wheat, citrus fruits and cotton were the chief targets of the opposition in the caucus, the cotton schedule being under consideration upon adjournment.

No changes were made in the committee's bill as a result of the discussion, advocates of increased duties on wheat, as well as those favoring its free listing, being voted down, and members who urged increased duties on citrus fruits, pineapples, cotton yarns and other articles meeting a like fate.

Jersey City Gets in Line

Adopts Commission Plan Favored by Wilson When Governor.

Jersey City, N. J., April 16.—Jersey City voted to adopt a commission form of government, favored by Woodrow Wilson when governor. Hoboken, Bayonne and Union Hill rejected the proposition. Jersey City is the first large municipality in the East to first this form of government.

Last July the proposition was defeated in Jersey City by about 2,000 votes, but now it was carried by nearly 4,000, the figures being 11,368 years and 7,455 nayes.

TO ADJUST REPRESENTATION

Republicans Plan Curtailing South's Number of Delegates.

Chicago, April 16.—The executive committee of the Republican national committee, which will meet in the near future, probably in Chicago, will take under consideration the work of curtailing the representation of the Southern states in the next national convention, according to a statement by Roy O. West, national committee man from Illinois, who has taken the initiative in the movement.

"A careful investigation," said Mr. West, "is being made as to the means necessary to effect such a change. The result will be submitted to Charles D. Hilles, chairman of the Republican national committee."

Colonel Moore Stricken.

Rochester, N. Y., April 16.—Colonel Arthur W. Moore, artist and journalist, died at his home here, aged seventy-three. Colonel Moore was the first editor of the Cosmopolitan magazine.

WILSON CONTROLS HIS PARTY WELL

His Influence is Apparent in Many Things.

DEMOCRATS ARE LOYAL.

They Want to Go Along With President as Far as Possible—Wouldn't Fancy Being Classed as "Reactionaries"—Underwood Scores on Tariff. Several "Minority Leaders."

By ARTHUR W. DUNN.

Washington, April 16.—[Special.]—Few presidents have been in as complete control of their party in congress as President Wilson. That his influence and suggestion can be traced all through the tariff bill there can be little doubt, that he has been able to shape the most important and closely contested schedules to his liking is true, and that the tariff will be considered in the shape and on the lines he suggests is also a fact.

Most of this influence had been exerted before congress met in extra session, so the power which the president exercises cannot be traced to his visits to the capitol or the fact that his first message was delivered in person.

The truth is that the Democrats, whether of one faction or another, want to go along with the president just as far as they can. There are no Democrats who want to be classed as "reactionaries," or at least leave themselves open to the charge or having it proved if made. And the Democrat who opposes President Wilson is apt to be so classed.

Underwood Scored First.

By introducing his tariff bill on the first day of the session Underwood scored first, beating President Wilson to it, so to speak. As Wilson's message was all about the tariff and Underwood's bill was all tariff there can be no question of first blood for the young man from Alabama.

Minority Leaders.

"Majority Leader Underwood after a conference with Minority Leader Mann and Minority Leader Murdock," etc., as a recent paragraph read, shows that there is surplus of minority leaders in the house.

And why shouldn't Hal Cooper of Wisconsin get into the minority leader game? He received the votes of four men for speaker—four who were too progressive to vote for Jim Mann and too progressive enough to vote for Vic Murdock. Lenroot of Wisconsin and Anderson of Minnesota wouldn't vote for Mann two years ago, but they thought he was good enough to support this time.

Don't Need to Sacrifice.

"I have accepted the office at a great personal sacrifice," said a man who recently took a place under the new administration. The statement caused groans by those Democratic patriots who have been waiting around Washington for more than a month for jobs. "My goodness!" exclaimed one. "He takes the place at a personal sacrifice. He doesn't need to do that. There's a lot of us willing to take any of these jobs."

"Who's Chandler?" They Asked.

On the opening day a young man appeared for the first time in the house and nominated Victor Murdock for speaker. His name was Chandler, and he was credited to New York in the printed list of members. But before five minutes had elapsed the people were asking, "Who's this fellow Chandler?"

He talked too much, in the estimation of those who gauge oratory. He threatened too much, in the judgment of those who have heard oratorical thunderbolts before. But after he had gone the gamut of Progressive outpourings his Irish came out, and as the words flowed in easy blarney liquid everybody came to the conclusion that he had "gone across." Chandler had made good. He was the real thing as an orator, and although he had been somewhat flowery and the old timer would have put much of his stuff under the title of "slush," yet upon the whole he made a good cleanup. Mr. Chandler represents the Nineteenth New York district.

Clerk Tackled It.

The name of the delegate from Hawaii is Jonah Kalaianale. It takes an expert to pronounce the name, and it is pronounced only once in two years—when the clerk has to read it among the names of those elected to congress. The clerk who has to do the reading went up against the name for the first time when congress assembled, but he hesitated only long enough to let everybody know that he had a hard proposition to tackle and went to it. What he said no one will ever know, for his efforts were drowned in the gale of laughter that swept over the house. You can't trifle with a name like that and get away with it.

Are They Liars?

An irate individual asked, "Which of these departments contains the most liars?" He was trying to get something and found that he was delayed or put off, as many another man is in these times, when there is such a great demand upon the time of cabinet officers.

Naturally promises to see men at certain times cannot be fulfilled. Naturally the time of cabinet men is occupied beyond their anticipation. Politicians are not all liars. They have to handle situations as they develop.

Hia Synonym.

Mrs. Peck—John, give me a synonym for misery. Mr. Peck—What's the matter with matrimony?—Judge.

MRS. W. C. STORY.

One of Three Candidates for President of D. A. R.

THREE CANDIDATES IN FIELD

Keen Interest Shown in D. A. R. Presidential Contest.

Washington, April 16.—With the nomination in the continental congress of the three avowed candidates for president general, about whom a political storm has centered for weeks, opposing factions of the society of the Daughters of the American Revolution, made final preparations for the election, the all important event of the year with the Daughters.

Rumors of dark horses failed to materialize. The only names presented in the presidential generalship race were those of Mrs. John Miller Horton of Buffalo, known as the administration candidate; Mrs. William Cummings Story of New York, head of the Conservative party, and Mrs. Charles B. Bryan of Memphis, Tenn. Each was nominated by a member of her own chapter and seconded by four delegates from other chapters.

PREMIER DECLARES

STRIKE WILL FAIL

Belgian Government Is Ready to Conciliate.

Brussels, April 16.—Out of the welter of contradictory and incomplete figures it is impossible to more than approximate the total number of workmen who have joined in the strike throughout Belgium for man-hour suffrage. Independent estimates place the number between 280,000 and 300,000, although the Socialists, who are responsible for the movement, claim 400,000.

Except in the industrial centers the strike has had no apparent effect. The general public has not been inconvenienced and consequently is not impressed, and, as the strikers generally maintain admirable discipline, they have not alienated the sympathies of the Liberal capitalists, who are contributing to their fund. The proprietor of a large hotel in Brussels is giving \$20,000 weekly until the strike has been lost or won.

The situation was the subject of debate in the senate, which reassembled. In answer to the attacks of the Liberals and Socialists the premier said the government was and is ready to take conciliatory action, but that it has no intention to abdicate before the strike.

NOT BOUND BY PRIMARIES

Postmaster General Looks on Them as Suggestions.

Washington, April 16.—South Dakota politicians who favor the appointment of postmasters and other federal officers nominated by a primary election have received little encouragement from Postmaster General Burleson.

The postmaster general in a letter to Representative Dillon of that state says he recognizes no obligation on his part to appoint persons nominated at such a primary. He says he will merely consider the results of such primaries as suggestions and will take them into account along with other suggestions relative to the appointment of persons to postoffices.

DEMOCRATS WIN ON TARIFF

John J. Mitchell Elected to Congress From Massachusetts.

Boston, April 16.—John J. Mitchell, a Democrat, was elected to congress from the Thirteenth district after a three-cornered contest in which tariff discussion figured prominently. Mitchell's plurality over Alfred H. Cutting, Republican, was 4,148. The vote for Norman H. White, Progressive, fell 3,200 short of that of Cutting.

The special election was necessary on account of the election of John W. Weeks, Republican, former congressman, to be United States senator. Last November Mr. Mitchell was defeated by Mr. Weeks by 2,345 votes.

The tariff and the Underwood bill were practically the only topics debated in the campaign.

LAND BILL GOES THROUGH HOUSE

MAY CALL SPECIAL SESSION

Minnesota Governor Sends Veto Message to House.

St. Paul, April 16.—Governor A. O. Eberhart sent a veto message to the house returning without his approval the W. I. Nolan bill, giving cities the right to make rates for public utilities, and demanded that the legislature pass a state public utilities bill at this session. If the lawmakers refuse to follow this advice, the governor says, he will call an extra session some time this year to pass such a measure. The house received the message with evident disapproval and it was laid on the table.

By passing the Minnette-Schwartz-Holmberg telephone regulation bill, passed by the house several weeks ago, the senate apparently gave notice that it takes little stock in the threat of Governor Eberhart to call an extra session unless a general public utilities bill is passed at this session.

The three omnibus appropriation bills, providing money for the state institutions and departments for the next two years, with a total of \$17,867,000, were introduced in both houses of the legislature.

URGES ALLIES TO ACCEPT

Bulgaria Favors Latest Proposal to End War.

London, April 16.—The Bulgarian government, according to a Sofia dispatch, has notified the other governments of the Balkan league that the terms of the latest note of the great powers are acceptable to Bulgaria and asks the allies to assent promptly to the conclusion of peace. It is probable, added the dispatch, that an armistice will be arranged this week. According to reports current in St. Petersburg the armistice will be the result of Russian mediation.

In diplomatic circles in London the view is held that the peace conference will shortly reassemble in the British capital. A Constantinople dispatch admits the existence of some sort of truce as a precursor of an armistice.

MONEY REFORM MUST WAIT

Democrats of Senate Committee Plan Legislation.

Washington, April 16.—Final action upon a currency reform bill at the present session of congress is not considered probable by members of the senate committee on banking and currency.

Senator Owen will introduce a resolution as a result of a conference providing for additional hearings under the direction of the committee.

Aviator Plunges to Death.

Monte Carlo, April 16.—Aviator Godart, a French aviator, fell into the bay with his machine and was drowned.

In a Quandary.

A charming hostess who was entertaining a party of children discovered one little fellow sitting in a corner apparently lost in thought.

"What are you thinking about, Harry?"

"Mother told me not to take two oranges," piped the little man, "and I was thinking I would be mighty lucky if I got one!"—London Telegraph.

PLAN WORLDWIDE FIGHT.

Denver, April 16.—The first step in launching a worldwide anti-white slavery campaign was taken here by the chartering of the International Anti-White Slave association. The object of the organization is the suppression of national and international traffic in girls and the enactment and enforcement of adequate laws.

WILSON MAKES NOMINATIONS

John E. Osborn of Wyoming First Assistant Secretary of State.

Washington, April 16.—President Wilson sent a big batch of nominations to the senate. The most important were:

California Assembly Passes Measure Aimed at Japs.

CONFERENCE AT WASHINGTON

President Wilson and Secretary of State Bryan Discuss Pending Legislation With Japanese Ambassador, Mikado's Government Maintains Bill Constitutes a Breach of Treaty Obligations of the United States.

Sacramento, Cal., April 16.—An anti-alien land ownership bill, designed primarily to prevent Japanese from acquiring title to real property within the state, but so worded as to prohibit any alien from owning land more than one year, except upon a declaration of his intention to become a citizen, was passed by the assembly of the legislature by a vote of 60 to 15.

The measure was drafted by a subcommittee of the judiciary committee as a substitute for bills previously introduced, all of which specifically provided that "aliens ineligible to citizenship should not hold lands." The committee, however, proceeded on the theory that such a statute might be held in violation of the treaty rights of Japanese subjects and broadened the measure.

In order not to embarrass foreign corporations the committee did make the corporation clause of the bill apply only to "aliens not eligible to citizenship."

JAPAN OBJECTS TO MEASURE

Ambassador Claims Land Bill is Discriminatory.

Washington, April 16.—Efforts to prevent friction between the United States and Japan over the proposed California alien landholding bill were continued by President Wilson and Secretary Bryan in conferences with Viscount Chinda, the Japanese ambassador. The ambassador called first at the White House to talk with the president and then went to the state department to confer with Secretary Bryan.

Without offending the people of California by any official interference with their legislative proceedings the president and his secretary of state have unofficially conveyed to certain influential persons in that state the hope that the projected legislation will not be permitted to take a form that would justify the Japanese government in asserting that it constituted a breach of the treaty obligations of the United States.

The purpose of the conferences, it is understood, was to ascertain whether the senate bill, as amended, is still objectionable to Japan and if so in what respect. The ambassador is said to have indicated that further changes must be made in the bill before it can be acceptable to Japan and that these changes must take the form of amendments to place all aliens on even terms. The Japanese government contends the bill, in its present state, does not do this.

of the city when it was understood
that the new era of law enforcement
was a reality instead of a dream,

members of the legislature on the
non-partisan plan, as a bill to that
effect is now before the governor,
having passed both houses, and only
awaits his signature to become a
law. In no other state in the union
does such a law occupy a place on
the statute books and the workings
will be watched with interest if this
state tries it out. Under its provi-
sions also come county officers, and
the partisan ballot will contain only
the names of candidates for congress
and state offices. The primary will
be held on the third Monday in June,
and the non-partisan ballot will con-
tain the names of judiciary candi-
dates, county officers and members of
the legislature. The ballot will not
show to what party the men whose
names appear belong, and as there
is no second choice the voter will be
obliged to express his personal choice
when voting. The two candidates
having the highest number of votes
at the primary will go on the ballot
at the general election and the bat-
tle will be between them, as under
the provisions of the proposed law
no candidates may file by petition for
any non-political office, which is a
wise feature providing it will stand
the test of the courts.

Have you ever stopped to consider how much time and thought goes into the making of the clothing we sell?

Months and months before the garments which we are now showing are delivered to us, master minds analyze and study the style tendencies to separate from the mass of material at their command only those things which they know will meet with your approval.

These pure woolen fabrics, which you demand, must pass through many hands before they are at last ready for the tailors' perfecting touch. And finally, they come to us that we may offer them to you in all their purchase-compelling perfection.

This is the inside story of Kuppenheimer Clothes

Correctly conceived, masterfully made by men who know, from woollens which will not only stand the acid test of purity, but which are guaranteed to give so much worthy wear and lasting satisfaction to insure your demanding them whenever you purchase clothing.

Come into this live store today

Make known to us your wishes; let us go over with you, in a friendly way, the many models in all their alluring fabrics, patterns and shades, and find the garment of your choice, at the price you want to pay, thus solving once and for all your clothing problem.

BRAINERD HAS \$100,000 PAY DAY

Railways and Business Enterprises of City Bring Figures to That Amount

IS EVIDENCE OF PROSPERITY

Brainerd Has More Talking Points Than Any Other Town of Its Size in the State

Brainerd may not be built to a plan, its plumbing may not have been figured from the start, the sidewalks may have a few jogs, but when it gets down to brass tacks and the pay days which tell the story, Brainerd gets there with both feet and especially so this middle of the month when approximately \$100,000 was disbursed in cash, mind you, and most of it gold.

Brainerd has never skipped any pay days. The banks of this city are solid as Gibraltar and enjoy the unique distinction of paying currency when north Minnesota handed out cashier's checks. But to get back to the pay day. The figures are:

Northern Pacific shops	-----	\$70,000
N. P. Ry. yard and freight office	-----	1,600
Minnesota & International railway	-----	12,000
Northwest Paper Co. pulp mill (estimated)	-----	2,000
Parker-Topping foundry, (semi-monthly)	-----	5,000
Exploration work and drills tributary to Brainerd	-----	5,000
Brainerd Milling Co.	-----	200
Small industries of city	-----	1,700

Total ----- \$100,000

The Northern Pacific railway shops, the largest repair shops in the west and almost the largest in the country, are the backbone of Brainerd and that backbone has never been paralyzed by any disorder. As sure as the sun rises the shops have worked with steadiness and precision and that is a credit not alone to the company and the town, but to the employees. There are men in the shops, and quite a few of them, who have put in 20 years, straight time, working.

Work at the tie plant of the Northern Pacific railway in West Brainerd is picking up and more ties are being treated and more men set to work.

The payday of the Minnesota & International railway was approximately \$24,000 and of this amount fully half is spent in Brainerd.

The Northwest Paper company pulp mill benefits Northeast Brainerd, and in fact, all Brainerd. Its pay days, as a rule, approximate \$2,000 and the mill grinds away as steadily under the efficient management of Supt. Thomas G. Johnson, as the river from which is generated its power.

The Parker-Topping foundry company has two pay days a month, each averaging about \$5,000 or a total of \$10,000 for the month.

Brainerd has more talking points than any other city of its size in the state. The farming industry is coming to the front and the organization of the new Farmers Produce company will bring lots of business to Brainerd. The growth of the farming industry in general cannot help but be of practical benefit to Brainerd.

The drills about the country tributary to Brainerd disburse large sums and that money should be counted in on a Brainerd pay day, as much of it is spent here. Several large drilling companies maintain their headquarters in the city.

Brainerd people may in a measure be aware of the money disbursed in Brainerd, but it is good for the soul to occasionally let the outside world know what a good town we have right here.

ALL YOU NEED IS A CASCARET TONIGHT

No Sick Headache, Bilious Stomach, Coated Tongue or Constipated Bowels by Morning

Turn the rascals out—the headache, the biliousness, the indigestion, the sick, sour stomach and foul gases—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse and regulate your stomach; remove the sour, undigested and fermenting food and that misery-making gas; take the excess bile from your liver and carry out of the system all the constipated waste matter and poison in the intestines and bowels. Then you will feel great.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy, liver and bowel action for months. Children love to take Cascarets because they taste good—never gripe or sicken.

CONCERT AND PROGRAM

To be Given Friday Afternoon by Pupils of the Lincoln School

On Friday afternoon at 3 o'clock the pupils of the Lincoln school and the high school orchestra will give a program, to which parents are invited.

The program will consist of selections by the orchestra, vocal selections and dramatic readings by representatives of various grades.

This will be the first of a series of programs to be given in each of the grade buildings and it is hoped that parents will make an effort to come out for an hour and encourage the pupils and their teachers by their presence.

Deputy Labor Commissioner C. S. Albright Makes Report on Cuyuna Range Strike

Instructions were issued yesterday by Governor A. O. Eberhart to G. S. Swanson, county attorney of Crow Wing county, to use all possible efforts to suppress "blind pigs" in the mining country, says the Minneapolis Journal.

Mr. Eberhart had a conference today with Labor Commissioner W. F. Houk and his deputy, C. S. Albright, who has spent some time in the districts where trouble is threatened.

Mr. Albright expressed the conviction that the difficulty between the miners and the operators will be adjusted but there are conditions existing which may provoke an ugly state of affairs, and lead to disorders in which much valuable property may be damaged.

BIG BRUSH FIRE RAGED YESTERDAY

Most Difficult Fire to Fight Which County Has Seen in Last Sixteen Years

DAMAGED TIMBER, HAY, ETC.

Extended From Town of Barrows to the Very City Limits of Brainerd on South Side

The biggest brush fire which Crow Wing county has seen in the last 16 years raged in the territory between Barrows and Brainerd yesterday. Whipped by the wind the flames rushed to the very city limits of Brainerd on the south side.

Heavy damage was done to hay, standing timber, cord wood, logs, etc. The Virginia Ore Mining company at Barrows lost a lot of valuable mining timber at the Barrows mine.

Hay owned by J. M. Hayes and other land owners went up in smoke. Cordwood piles were quickly snuffed out.

Standing young timber, whose value cannot be estimated, was speedily reduced to ashes.

Farmers banded together and fought the flames. Forest Ranger J. P. Saunders, of Brainerd, was on the scene and gave what assistance was in his power.

For Dyspepsia

If you suffer Stomach Trouble, and you try our remedy, it won't cost you a cent if it fails.

To prove to you that indigestion and dyspepsia can be thoroughly relieved and that Rexall Dyspepsia Tablets will do it, we will furnish the medicine absolutely free if it fails to give you satisfaction.

The remarkable success of Rexall Dyspepsia Tablets is due to the high degree of scientific skill used in devising their formula as well as to the care exercised in their manufacture, whereby the well-known properties of Bismuth-Subnitrate and Pepsin have been properly combined with Carminatives and other agents.

Bismuth-Subnitrate and Pepsin are constantly employed and recognized by the entire medical profession as invaluable in the treatment of indigestion and dyspepsia. Their proper combination makes a remedy invaluable for stomach relief.

We are so certain that there is nothing so good for stomach ills as Rexall Dyspepsia Tablets that we urge you to try them at our risk. Three sizes, 25 cents, 50 cents, and \$1.00.

MARION GREEN

(Continued from page three)

Chicago. And when Mr. Green sings in Brainerd this Friday, it is a treat which no music lover can afford to miss.

The Goshen Times, in commenting on the recital Mr. Green gave at the Goshen (Menonite) college, says: "Mr. Green got a response from the audience at the very start of the program and held their interest to the close. Mr. Green's voice is one of great force and fine quality. His range covers the baritone register and embrace the bass tones. His control of the breath is complete and his mastery of tonal effects wonderful.

His tone production serves as a fine model for all vocal students. He sings as it were—straight from the shoulder and with authority and decision. His long phrases are executed with perfect ease. The sustained effects were faithfully given and the difficult passages—well there seemed to be none—to hear Mr. Green do them in his own delightful style.

The program was well made, having two heavy groups and then a lighter ones. They seemed so well arranged that each song in its turn seemed the desirable one, several of them demonstrating clearly the singer's wonderful ability of enunciation and clear pronunciation. He is a manly man and we hope to hear him in our city again."

DON'T MISTAKE THE CAUSE

Many Brainerd People Have Kidney Trouble and Do Not Know it

Do you have backache? Are you tired and worn out? Feel dizzy, nervous and depressed? Are the kidney secretions irregular?

Highly colored; contain sediment? Likely your kidneys are at fault. Weak kidneys give warnings of distress.

Heed the warning; don't delay—Use a tested kidney remedy. Read this testimony from Brainerd.

Anthony Miller, 913 Seventh St. S. Brainerd, Minn., says: "There was much lameness across my kidneys and I also suffered constantly from backache. I tried most every remedy that was brought to my attention but nothing helped me until I used Doan's Kidney Pills, procured at H. P. Dunn's drug store. They strengthened my back, removed the lameness and thus made it possible for me to get my proper rest. I know Doan's Kidney Pills to be good for kidney complaint."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

BOHN SYPHON REFRIGERATORS

Are used by the largest hotels and railroads in the country because they represent the most perfect system of refrigeration on the market. The insulation and circulation of air prevents all bad odors etc. that are commonly so objectionable. The construction is entirely original, the interior being made of solid white porcelain which retains the cold air longer than any other material, and the exterior is finished in beautiful quarter-sawed oak. We have refrigerators for all sizes of hotels and homes and as we priced them low as \$11 and as high as \$45, we can show something to satisfy everyone. The next time you are down town let us explain this wonderful refrigerator to you.

SUDDEN CHANGE FOR THE WORSE

Condition of Pope Pius Creates Grave Anxiety.

TEMPERATURE IS GOING UP

Pontiff's Bronchial Symptoms Also Present New and Serious Features. Affected Zone on Left Side of Chest Shows Further Signs of Pneumonia. Rumors in Circulation That Holy Father Is Dying.

Rome, April 16.—Once again there has been a sudden change for the worse in the condition of Pope Pius X. It is changes such as this that have repeatedly transformed the feeling of optimism regarding the pope's recovery into one of grave anxiety. In the knowledge that each recurrence withdraws something from the vital forces of the holy father.

Notwithstanding the reassurances of Professor Marchiafava a careful watch is being kept on the Vatican and there is doubt that the "satisfactory general condition" of the pontiff, as reported by the doctors, is borne out by the facts.

The temperature of the pope rose to 102. The bronchial symptoms presented new and grave features. The affected zone on the left side of the chest was further congested, with a possible area of consolidation—one of the signs of pneumonia—and the sounds within the bronchial tubes were more pronounced.

The attending physician ordered a special bacteriological examination of the sputum in order to ascertain whether it contained infectious material and the nature of the matter, which threatens to block the lungs.

The darkest reports are being circulated, one being that the pope is at the point of death, and that Father Agostino Pifferi, an Augustinian monk, has been ordered to be in readiness to bring to the patient the last communion, this being the prerogative of his office.

This appears to be an exaggeration of the situation, although undoubtedly the pope's condition is much worse.

The arrival in Rome of Angelo Sarto, the pope's brother, was interpreted in some quarters as a certain sign that all hope had been abandoned. It was forgotten that Angelo Sarto left his own village on his journey to the Holy City long before the present relapse of the patient occurred, in fact, when the condition of the pope had greatly improved.

Angelo was received with open arms by his sisters, who seem to think that the more the pope is surrounded by members of his family the easier it will be to save him.

WOULD USE FLOOD WATERS

Congressman Martin Has Irrigation Scheme.

Washington, April 16.—Representative Martin of South Dakota is trying to have the interior department adopt a plan of utilizing flood waters for irrigation of semi-arid land in his state. He has had several conferences recently with Secretary Lane of the interior department and other officials in the land division in the hope that they will recognize the value of storage reservoirs for flood waters.

Mr. Martin says that at present field agents of the department are opposed to the plan because they say it is not practicable. Settlers have tried the plan out in a small way and declare it could be worked successfully.

Believing the department would ultimately adopt such a plan Mr. Martin says that many entries have been made.

KEEPS DEATH APPOINTMENT

Young Man Thought He Would Lose Nerve if He Waited.

Miles City, Mont., April 16.—Fay H. Maxwell of Balfour, N. D., about twenty-two years old, ended his life by shooting.

He left a letter to his father declaring it was his intention to kill himself at midnight, but he changed the hour to 7 p. m. sharp, because he was afraid he would "lose his nerve." He committed suicide at the time stated.

Young Maxwell had spent all the money given him by his father. He gave this as the reason for his act.

ADMITS DIETZ MURDER.

Chicago, April 16.—A man in custody at the Northwest Side police station is said to have confessed to the murder of George Dietz, the wealthy tailor, found slain at his home early Monday morning.

\$2,132,857 More Titanic Claims.

New York, April 16.—There were 125 claims filed against the Oceanic Steamship company before the time limit expired for the beginning of actions for the loss of life or property in the sinking of the Titanic a year ago. These amount to \$2,132,857 and bring the total now claimed for loss of life and property and injury to nearly \$14,000,000.

SENATOR BURTON.

Chairman of Committee to Plan Action on Nominations.

MAY DEMAND EXPLANATION

Republican Senators Will Not Oppose All Nominations.

Washington, April 16.—Republican senators have determined to hold up and demand explanation of the proposed removal of Republican officials of the government if it appears that a change may have been decided upon by the administration "for political reasons."

This decision at a party conference is coupled with a determination not to make any general fight on President Wilson's appointments or to attempt retaliatory tactics against the Democrats, who prevented the confirmation of over 1,800 of President Taft's nominations in the last session.

A committee consisting of Senators Burton, Townsend, Clark of Wyoming, Lippitt and Oliver was named to outline a general policy for the Republicans. There were twenty-eight Republican senators at the conference.

WHEAT SCHEDULE REMAINS THE SAME

Democratic Caucus Stands by Committee Figures.

Washington, April 16.—Democratic representatives from all sections are being besieged in letter and by personal representatives of the insurance companies protesting against their inclusion, as taxable organizations, under the corporation tax provision of the tariff bill now under consideration by the house Democratic caucus.

Representative Cordell Hull of Tennessee, author of the income tax feature, said that his desk was piled with mail from insurance companies protesting that they are not profit-making organizations. The matter may be brought up in caucus, but the Democratic leaders declare that insurance organizations were given careful consideration when the law was framed and that opposition will not avail.

Wheat, citrus fruits and cotton were the chief targets of the opposition in the caucus, the cotton schedule being under consideration upon adjournment.

No changes were made in the committee's bill as a result of the discussion advocates of increased duties on wheat, as well as those favoring its free listing, being voted down, and members who urged increased duties on citrus fruits, pineapples, cotton yarns and other articles meeting a like fate.

JERSEY CITY GETS IN LINE

Adopts Commission Plan Favored by Wilson When Governor.

Jersey City, N. J., April 16.—Jersey City voted to adopt a commission form of government, favored by Woodrow Wilson when governor. Hoboken, Bayonne and Union Hill rejected the proposition. Jersey City is the first large municipality in the East to adopt this form of government.

Last July the proposition was defeated in Jersey City by about 2,000 votes, but now it was carried by nearly 4,000, the figures being 11,368 years and 7,455 nays.

TO ADJUST REPRESENTATION

Republicans Plan Curtailing South's Number of Delegates.

Chicago, April 16.—The executive committee of the Republican national committee, which will meet in the near future, probably in Chicago, will take under consideration the work of curtailing the representation of the Southern states in the next national convention, according to a statement by Roy O. West, national committee man from Illinois, who has taken the initiative in the movement.

"A careful investigation," said Mr. West, "is being made as to the means necessary to effect such a change. The result will be submitted to Charles D. Hilles, chairman of the Republican national committee."

Colonel Moore Stricken.

Rochester, N. Y., April 16.—Colonel Arthur W. Moore, artist and journalist, died at his home here, aged seventy-three. Colonel Moore was the first editor of the Cosmopolitan magazine.

WILSON CONTROLS HIS PARTY WELL

His Influence Is Apparent In Many Things.

DEMOCRATS ARE LOYAL.

They Want to Go Along With President as Far as Possible—Wouldn't Fancy Being Classed as "Reactionaries"—Underwood Scores on Tariff. Several "Minority Leaders."

By ARTHUR W. DUNN.

Washington, April 16.—[Special.]—Few presidents have been in as complete control of their party in congress as President Wilson. That his influence and suggestion can be traced all through the tariff bill there can be little doubt, that he has been able to shape the most important and closely contested schedules to his liking is true, and that the tariff will be considered in the shape and on the lines he suggests is also a fact.

Most of this influence had been exerted before congress met in extra session, so the power which the president exercises cannot be traced to his visits to the capitol or the fact that his first message was delivered in person.

The truth is that the Democrats, whether of one faction or another, want to go along with the president just as far as they can. There are no Democrats who want to be classed as "reactionaries," or at least leave themselves open to the charge or having it proved if made. And the Democrats who oppose President Wilson are apt to be so classed.

Underwood Scored First.

By introducing his tariff bill on the first day of the session Underwood scored first, beating President Wilson to it, so to speak. As Wilson's message was all about the tariff and Underwood's bill was all tariff there can be no question of first blood for the young man from Alabama.

Minority Leaders.

"Majority Leader Underwood after a conference with Minority Leader Mann and Minority Leader Murdock," etc., as a recent paragraph reads, shows that there is surplus of minority leaders in the house.

And why shouldn't Hal Cooper of Wisconsin get into the minority leader game? He received the votes of four men for speaker—four who were too progressive to vote for Jim Mann and not progressive enough to vote for Victor Murdock. Lenroot of Wisconsin and Anderson of Minnesota wouldn't vote for Mann two years ago, but they thought he was good enough to support this time.

Don't Need to Sacrifice.

"I have accepted the office at a great personal sacrifice," said a man who recently took a place under the new administration. The statement caused groans by those Democratic patriots who have been waiting around Washington for more than a month for jobs. "My goodness!" exclaimed one. "He takes the place at a personal sacrifice. He doesn't need to do that. There's a lot of us willing to take any of these jobs."

"Who's Chandler?" They Asked.

On the opening day a young man appeared for the first time in the house and nominated Victor Murdock for speaker. His name was Chandler, and he was credited to New York in the printed list of members. But before five minutes had elapsed the people were asking, "Who's this fellow Chandler?"

He talked too much, in the estimation of those who gauge oratory. He threatened too much, in the judgment of those who have heard oratorical thunderbolts before. But after he had gone the gamut of Progressive outpourings his Irish came out, and as the words flowed in easy blarney liquid everybody came to the conclusion that he had "gone across." Chandler had made good. He was the real thing as an orator, and although he had been somewhat flowery and the old timer would have put much of his stuff under the title of "slush," yet upon the whole he made a good cleanup. Mr. Chandler represents the Nineteenth New York district.

Clerk Tagged It.

The name of the delegate from Hawaii is Jonah Kalaianole. It takes an expert to pronounce the name, and it is pronounced only once in two years—when the clerk has to read it among the names of those elected to congress. The clerk who has to do the reading went up against the name for the first time when congress assembled, but he hesitated only long enough to let everybody know that he had a hard proposition to tackle and went to it. What he said no one will ever know, for his efforts were drowned in the gale of laughter that swept over the house. You can't trifle with a name like that and get away with it.

Are They Liar?

An irate individual asked, "Which of these departments contains the most liars?" He was trying to get something and found that he was delayed or put off, as many another man is in these times, when there is such a great demand upon the time of cabinet officers.

Naturally promises to see men at certain times cannot be fulfilled. Naturally the time of cabinet men is occupied beyond their anticipation. Politicians are not all liars. They have to handle situations as they develop.

Hia Synonym.

Mrs. Peck—John, give me a synonym for misery. Mr. Peck—What's the matter with matrimony?—Judge.

MRS. W. C. STORY.

One of Three Candidates for President of D. A. R.

THREE CANDIDATES IN FIELD

Keen Interest Shown in D. A. R. Presidential Contest.

Washington, April 16.—With the nomination in the continental congress of the three avowed candidates for president general, about whom a political storm has centered for weeks, opposing factions of the society of the Daughters of the American Revolution, made final preparations for the election, the all important event of the year with the Daughters.

Rumors of dark horses failed to materialize. The only names presented in the presidential generalship race were those of Mrs. John Miller Horton of Buffalo, known as the administration candidate; Mrs. William Cummings Story of New York, head of the Conservative party, and Mrs. Charles B. Bryan of Memphis, Tenn. Each was nominated by a member of her own chapter and seconded by four delegates from other chapters.

PREMIER DECLARES STRIKE WILL FAIL

Belgian Government Is Ready to Conciliate.

Brussels, April 16.—Out of the welter of contradictory and incomplete figures it is impossible to more than approximate the total number of workmen who have joined in the strike throughout Belgium for manhood suffrage. Independent estimates place the number between 280,000 and 300,000, although the Socialists, who are responsible for the movement, claim 400,000.

Except in the industrial centers the strike has had no apparent effect. The general public has not been inconvenienced and consequently is not impressed, and as the strikers generally maintain admirable discipline, they have not alienated the sympathies of the Liberal capitalists, who are contributing to their fund. The proprietor of a large hotel in Brussels is giving \$20,000 weekly until the strike has been lost or won.

The situation was the subject of debate in the senate, which reassembled. In answer to the attacks of the Liberals and Socialists the premier said the government was and is ready to take conciliatory action, but that it has no intention to abdicate before the strike.

NOT BOUND BY PRIMARIES

Postmaster General Looks on Them as Suggestions.

Washington, April 16.—South Dakota politicians who favor the appointment of postmasters and other federal officers nominated by a primary election have received little encouragement from Postmaster General Burleson.

The postmaster general in a letter to Representative Dillon of that state says he recognizes no obligation on his part to appoint persons nominated at such a primary. He says he will merely consider the results of such primaries as suggestions and will take them into account along with other suggestions relative to the appointment of persons to postoffices.

DEMOCRATS WIN ON TARIFF

John J. Mitchell Elected to Congress From Massachusetts.

Boston, April 16.—John J. Mitchell, a Democrat, was elected to congress from the Thirteenth district after a three-cornered contest in which tariff discussion figured prominently.

Mitchell's plurality over Alfred H. Cutting, Republican, was 4,148. The vote for Norman H. White, Progressive, fell 3,200 short of that of Cutting.

The special election was necessary on account of the election of John W. Weeks, Republican, former congressman, to be United States senator. Last November Mr. Mitchell was defeated by Mr. Weeks by 2,345 votes.

The tariff and the Underwood bill were practically the only topics debated in the campaign.

LAND BILL GOES THROUGH HOUSE

MAY CALL SPECIAL SESSION

Minnesota Governor Sends Veto Message to House.

St. Paul, April 16.—Governor A. O. Eberhart sent a veto message to the house returning without his approval the W. I. Nolan bill, giving cities the right to make rates for public utilities, and demanded that the legislature pass a state public utilities bill at this session. If the lawmakers refuse to follow this advice, the governor says, he will call an extra session some time this year to pass such a measure. The house received the message with evident disapproval and it was laid on the table.

By passing the Minnette-Schwartz-Holmberg telephone regulation bill, passed by the house several weeks ago, the senate apparently gave notice that it takes little stock in the threat of Governor Eberhart to call an extra session unless a general public utilities bill is passed at this session.

The three omnibus appropriation bills, providing money for the state institutions and departments for the next two years, with a total of \$17,867,000, were introduced in both houses of the legislature.

URGES ALLIES TO ACCEPT

Bulgaria Favors Latest Proposal to End War.

London, April 16.—The Bulgarian government, according to a Sofia dispatch, has notified the other governments of the Balkan league that the terms of the latest note of the great powers are acceptable to Bulgaria and asks the allies to assent promptly to the conclusion of peace. It is probable, added the dispatch, that an armistice will be arranged this week. According to reports current in St. Petersburg the armistice will be the result of Russian mediation.

In diplomatic circles in London the view is held that the peace conference will shortly reassemble in the British capital. A Constantinople dispatch admits the existence of some sort of truce as a precursor of an armistice.

MONEY REFORM MUST WAIT

Democrats of Senate Committee Plan Legislation.

Washington, April 16.—Final action upon a currency reform bill at the present session of congress is not considered probable by members of the senate committee on banking and currency.

Senator Owen will introduce a resolution as a result of a conference providing for additional hearings under the direction of the committee.

Aviator Plunges to Death.

Monte Carlo, April 16.—Aviator Godard, a French aviator, fell into the bay with his machine and was drowned.

In a Quandary.

A charming hostess who was entertaining a party of children discovered one little fellow sitting in a corner apparently lost in thought.

"What are you thinking about, Harry?"

"Mother told me not to take two oranges," piped the little man, "and I was thinking I would be mighty lucky if I got one!"—London Telegraph.

California Assembly Passes Measure Aimed at Japs.

CONFERENCE AT WASHINGTON

President Wilson and Secretary of State Bryan Discuss Pending Legislation With Japanese Ambassador, Mikado's Government Maintains Bill Constitutes a Breach of Treaty Obligations of the United States.

Sacramento, Cal., April 16.—An anti-alien land ownership bill, designed primarily to prevent Japanese from acquiring title to real property within the state, but so worded as to prohibit any alien from owning land more than one year, except upon a declaration of his intention to become a citizen, was passed by the assembly of the legislature by a vote of 60 to 15. The measure was drafted by a subcommittee of the judiciary committee as a substitute for bills previously introduced, all of which specifically provided that "aliens ineligible to citizenship should not hold lands." The committee, however, proceeded on the theory that such a statute might be held in violation of the treaty rights of Japanese subjects and broadened the measure.

In order not to embarrass foreign corporations the committee did make the corporation clause of the bill apply only to "aliens not eligible to citizenship."

JAPAN OBJECTS TO MEASURE

Ambassador Claims Land Bill is Discriminatory.

Washington, April 16.—Efforts to prevent friction between the United States and Japan over the proposed California alien landholding bill were continued by President Wilson and Secretary Bryan in conferences with Viscount Chinda, the Japanese ambassador. The ambassador called first at the White House to talk with the president and then went to the state department to confer with Secretary Bryan.

Without offending the people of California by any official interference with their legislative proceedings the president and his secretary of state have unofficially conveyed to certain influential persons in that state the hope that the projected legislation will not be permitted to take a form that would justify the Japanese government in asserting that it constituted a breach of the treaty obligations of the United States.

The purpose of the conferences, it is understood, was to ascertain whether the senate bill, as amended, is still objectionable to Japan and if so in what respect. The ambassador is said to have indicated that further changes must be made in the bill before it can be acceptable to Japan and that these changes must take the form of amendments to place all aliens on even terms. The Japanese government contends the bill, in its present state, does not do this.

JAP PRESS DENOUNCES BILL

Younger Element Among Political Factions Calls Mass Meeting.

Tokio, April 16.—The leading newspapers of Tokio, the Asahi, the Kokumin Shimbun and the Jiji Shimpō, which are usually conservative, have assumed an extremist attitude on the projected alien land ownership legislation in California. The Kokumin Shimbun is almost violent, while the Asahi is pessimistic.

The younger element among the political factions which incited the recent rioting have called a mass meeting for Thursday next. It will be held in a building which has a capacity of 15,000.

Lengthy special dispatches from San Francisco and Washington indicate that the situation is hopeless, but many of the Japanese assert their confidence that Americans, particularly the Californians, will surely deal justly and fairly with the question.

PLAN WORLDWIDE FIGHT.

Denver, April 16.—The first step in launching a worldwide anti-white slavery campaign was taken here by the chartering of the International Anti-White Slave association.

The object of the organization is the suppression of national and international traffic in girls and the enactment and enforcement of adequate laws.

WILSON MAKES NOMINATIONS

John E. Osborn of Wyoming First Assistant Secretary of State.

Washington, April 16.—President Wilson sent a big batch of nominations to the senate. The most important were:

To be first assistant secretary of state, John E. Osborn, Wyoming. Ambassador extraordinary and plenipotentiary to Great Britain, Walter Hines Page, New York. Commissioner of internal revenue, William H. Osborn, North Carolina.

highly incensed over his latest move,

claim it is a retaliatory move. The

want reform.

Duluth is entering a new era in
its history under the commission
form of government recently inau-
gurated in that city. The commis-
sioner of public safety yesterday is-
sued stringent orders to the police
ordering all saloons closed at 11
o'clock and to remain closed on Sun-
day; no liquor to be sold in the seg-
regated district; no liquor to be sold
in the cafes, restaurants, hotels or
clubs; tenderloin district wiped out
and no argument about the matter;
policemen to be immediately dis-
charged who allow violations of
these laws to exist without report-
ing them. Gloom, dark, grey, and
depressing pervaded certain sections
of the city when it was understood
that the new era of law enforce-
ment was a reality instead of a
dream, according to the News-Tri-
bune.

Minnesota is liable to establish a
precedent in the matter of electing
members of the legislature on the
non-partisan plan, as a bill to that
effect is now before the governor,
having passed both houses, and only
awaits his signature to become a
law. In no other state in the union
does such a law occupy a place on
the statute books and the workings
will be watched with interest if this
state tries it out. Under its provi-
sions also come county officers, and
the partisan ballot will contain only
the names of candidates for congress
and state offices. The primary will
be held on the third Monday in June,
and the non-partisan ballot will con-
tain the names of judiciary candi-
dates, county officers and members of
the legislature. The ballot will not
show to what party the men whose
names appear belong, and as there
is no second choice the voter will be
obliged to express his personal choice
when voting. The two candidates
having the highest number of votes
at the primary will go on the ballot
at the general election and the bat-
tle will be between them, as under
the provisions of the proposed law
no candidates may file by petition for
any non-political office, which is a
wise feature providing it will stand
the test of the courts.

Have you ever stopped to consider how much time and thought goes into the making of the clothing we sell?

Months and months before the garments which we are now showing are delivered to us, master minds analyze and study the style tendencies to separate from the mass of material at their command only those things which they know will meet with your approval.

These pure woolen fabrics, which you demand, must pass through many hands before they are at last ready for the tailors' perfecting touch. And finally, they come to us that we may offer them to you in all their purchase-compelling perfection.

This is the inside story of Kuppenheimer Clothes

Correctly conceived, masterfully made by men who know, from woollens which will not only stand the acid test of purity, but which are guaranteed to give so much worthy wear and lasting satisfaction to insure your demanding them whenever you purchase clothing.

Come into this live store today

Make known to us your wishes; let us go over with you, in a friendly way, the many models in all their alluring fabrics, patterns and shades, and find the garment of your choice, at the price you want to pay, thus solving once and for all your clothing problem.

BRAINERD HAS \$100,000 PAY DAY

Railways and Business Enterprises
of City Bring Figures to
That Amount

IS EVIDENCE OF PROSPERITY
Brainerd Has More Talking Points
Than Any Other Town of Its
Size in the State

Brainerd may not be built to a plan, its plumbing may not have been figured from the start, the sidewalks may have a few jogs, but when it gets down to brass tacks and the pay days which tell the story, Brainerd gets there with both feet and especially so this middle of the month when approximately \$100,000 was disbursed in cash, mind you, and most of it gold.

Brainerd has never skipped any pay days. The banks of this city are solid as Gibraltar and enjoy the unique distinction of paying currency when north Minnesota handed out cashier's checks. But to get back to the pay day. The figures are:

Northern Pacific shops.....	\$70,000
N. P. Ry. yard and freight office	1,600
Minnesota & International railway	12,000
Northwest Paper Co. pulp mill (estimated)	2,000
Parker-Topping foundry, (semi-monthly)	5,000
Exploration work and drills tributary to Brainerd	5,000
Brainerd Milling Co.	200
Small industries of city.....	1,700

Total

The Northern Pacific railway shops, the largest repair shops in the west and almost the largest in the country, are the backbone of Brainerd and that backbone has never been paralyzed by any disorder. As sure as the sun rises the shops have worked with steadiness and precision and that is a credit not alone to the company and the town, but to the employees. There are men in the shops, and quite a few of them, who have put in 20 years, straight time, working.

Work at the tie plant of the Northern Pacific railway in West Brainerd is picking up and more ties are being treated and more men set to work.

The payday of the Minnesota & International railway was approximately \$24,000 and of this amount fully half is spent in Brainerd.

The Northwest Paper company pulp mill benefits Northeast Brainerd, and in fact, all Brainerd. Its pay days, as a rule, approximate \$2,000 and the mill grinds away as steadily under the efficient management of Supt. Thomas G. Johnson, as the river from which is generated its power.

The Parker-Topping foundry company has two pay days a month, each averaging about \$5,000 or a total of \$10,000 for the month.

Brainerd has more talking points than any other city of its size in the state. The farming industry is coming to the front and the organization of the new Farmers Produce company will bring lots of business to Brainerd. The growth of the farming industry in general cannot help but be of practical benefit to Brainerd.

The drills about the country tributary to Brainerd disburse large sums and that money should be counted in on a Brainerd pay day, as much of it is spent here. Several large drilling companies maintain their headquarters in the city.

Brainerd people may in a measure be aware of the money disbursed in Brainerd, but it is good for the soul to occasionally let the outside world know what a good town we have right here.

ALL YOU NEED IS A CASCARET TONIGHT

No Sick Headache, Bilious Stomach,
Coated Tongue or Constipated
Bowels by Morning

Turn the rascals out—the headache, the biliousness, the indigestion, the sick, sour stomach and foul gases—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse and regulate your stomach; remove the sour, undigested and fermenting food and that misery-making gas; take the excess bile from your liver and carry out of the system all the constipated waste matter and poison in the intestines and bowels. Then you will feel great.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy, liver and bowel action for months. Children love to take Cascarets because they taste good—never gripe or sicken.

CONCERT AND PROGRAM

To be Given Friday Afternoon by
Pupils of the Lincoln
School

On Friday afternoon at 3 o'clock the pupils of the Lincoln school and the high school orchestra will give a program, to which parents are invited.

The program will consist of selections by the orchestra, vocal selections and dramatic readings by representatives of various grades.

This will be the first of a series of programs to be given in each of the grade buildings and it is hoped that parents will make an effort to come out for an hour and encourage the pupils and their teachers by their presence.

Deputy Labor Commissioner C. S. Allbright Makes Report on Cuyuna Range Strike

Instructions were issued yesterday by Governor A. O. Eberhart to G. S. Swanson, county attorney of Crow Wing county, to use all possible efforts to suppress "blind pigs" in the mining country, says the Minneapolis Journal.

Mr. Eberhart had a conference today with Labor Commissioner W. F. Houk and his deputy, C. S. Allbright, who has spent some time in the districts where trouble is threatened.

Mr. Allbright expressed the conviction that the difficulty between the miners and the operators will be adjusted but there are conditions existing which may provoke an ugly state of affairs, and lead to disorders in which much valuable property may be damaged.

BIG BRUSH FIRE RAGED YESTERDAY

Most Difficult Fire to Fight Which
County Has Seen in Last Six-
teen Years

DAMAGED TIMBER, HAY, ETC.

Extended From Town of Barrows
to the Very City Limits of
Brainerd on South Side

The biggest brush fire which Crow Wing county has seen in the last 16 years raged in the territory between Barrows and Brainerd yesterday. Whipped by the wind the flames rushed to the very city limits of Brainerd on the south side.

Heavy damage was done to hay, standing timber, cord wood, logs, etc. The Virginia Ore Mining company at Barrows lost a lot of valuable mining timber at the Barrows mine.

Hay owned by J. M. Hayes and other land owners went up in smoke. Cordwood piles were quickly snuffed out.

Standing young timber, whose value cannot be estimated, was speedily reduced to ashes.

Farmers banded together and fought the flames. Forest Ranger J. P. Saunders, of Brainerd, was on the scene and gave what assistance was in his power.

Announce Engagement

At a luncheon given at the home of Mr. and Mrs. J. G. Purple of Minneapolis was announced the engagement of their daughter, Miss Marguerite Purple to Mr. Paul M. Hale, son of Judge James T. Hale, of Deerwood.

For Dyspepsia

If you suffer Stomach Trouble, and you try our remedy, it won't cost you a cent if it fails.

To prove to you that indigestion and dyspepsia can be thoroughly relieved and that Rexall Dyspepsia Tablets will do it, we will furnish the medicine absolutely free if it fails to give you satisfaction.

The remarkable success of Rexall Dyspepsia Tablets is due to the high degree of scientific skill used in devising their formula as well as to the care exercised in their manufacture, whereby the well-known properties of Bismuth-Subnitrate and Pepsin have been properly combined with Carminatives and other agents.

Bismuth-Subnitrate and Pepsin are constantly employed and recognized by the entire medical profession as invaluable in the treatment of indigestion and dyspepsia. Their proper combination makes a remedy invaluable for stomach relief.

We are so certain that there is nothing so good for stomach ills as Rexall Dyspepsia Tablets that we urge you to try them at our risk. Three sizes, 25 cents, 50 cents, and \$1.00.

You can buy Rexall Dyspepsia Tablets in this community only at our store:

MARION GREEN

(Continued from page three)

Chicago. And when Mr. Green
sings in Brainerd this Friday, it is a
treat which no music lover can af-
ford to miss.The Goshen Times, in commenting
on the recital Mr. Green gave at the
Goshen (Menonite) college, says:
"Mr. Green got a response from the
audience at the very start of the
program and held their interest to
the close. Mr. Green's voice is one
of great force and fine quality. His
range covers the baritone register
and embrace the bass tones. His
control of the breath is complete and
his mastery of tonal effects wonder-
ful."His tone production serves as a
fine model for all vocal students.
He sings as it were—straight from
the shoulder and with authority and
decision. His long phrases are ex-
ecuted with perfect ease. The sus-
tained effects were faithfully given
and the difficult passages—well there
seemed to be none—to hear Mr.
Green do them in his own delight-
ful style.The program was well made, hav-
ing two heavy groups and then a
lighter ones. They seemed so well
arranged that each song in its turn
seemed the desirable one, several of
them demonstrating clearly the sing-
er's wonderful ability of enunciation
and clear pronunciation. He is a
manly man and we hope to hear him
in our city again."Tickets on sale by ladies of the
Musical club and at Dunn's drug
store.Only a few of those 25c safety
razors left at D. M. Clark & Co's.—

DON'T MISTAKE THE CAUSE

Many Brainerd People Have Kidney
Trouble and Do Not Know itDo you have backache?
Are you tired and worn out?
Feel dizzy, nervous and depressed?
Are the kidney secretions irregu-
lar?Highly colored; contain sediment?
Likely your kidneys are at fault.
Weak kidneys give warnings of
distress.Heed the warning; don't delay—
Use a tested kidney remedy.
Read this testimony from Brainerd.Anthony Miller, 913 Seventh St.
S. Brainerd, Minn., says: "There
was much lameness across my kid-
neys and I also suffered constantly
from backache. I tried most every
remedy that was brought to my at-
tention but nothing helped me until
I used Doan's Kidney Pills, pro-
cured at H. P. Dunn's drug store.
They strengthened my back, re-
moved the lameness and thus made
it possible for me to get my proper
rest. I know Doan's Kidney Pills to
be good for kidney complaint."For sale by all dealers. Price 50
cents. Foster-Milburn Co., Buffalo,
New York, sole agents for the United
States.Remember the name—Doan's—

BOHN SYPHON REFRIGERATORS

Are used by the largest hotels and railroads in the country because
they represent the most perfect system of refrigeration on the
market. The insulation and circulation of air prevents all bad
odors etc. that are commonly so objectionable. The construction is
entirely original, the interior being made of solid white porcelain
which retains the cold air longer than any other material, and the
exterior is finished in beautiful quarter-sawed oak. We have re-
frigerators for all sizes of hotels and homes and as we priced them
low as \$11 and as high as \$45, we can show something to satisfy
everyone. The next time you are down town let us explain this
wonderful refrigerator to you.
